**Key Features and Benefits of CSG's Store-Level Location Databases:**

- Parent company linkages
- Geo-coding (latitude and longitude)
- Industry Classification
- Physical Address
- Phone numbers
- Store numbers (where available)

**Store Level Information can be used to:**

- Identify site selections
- Create product awareness at both headquarter and store levels
- Educate store managers for special promotions, ad campaigns and coupon drops
- Plan in-store deliveries and sales merchandising
- Map the competition
- Integrate with internal data to measure store performance
- Develop market-appropriate planograms and product displays

**Sample Store Level Record**
